

# The most powerful Apple II in history.

If the idea of getting a computer for the family intrigues you, then there's one subject you'd do well to study. The Apple IIgs™

There are more Apple® IIs in more schools than any other personal computer. And the IIgs is at the head of the class. Which is not surprising. After all, it has enough power to run virtually all 10,000 Apple II programs. Up to three times faster than they've ever run before.

What's more, Apple IIgs graphics programs let you use over 4,000 colors with near photographic realism. And its music programs let you simulate anything from a human voice to a symphony orchestra.

\*Anyone, that is, who's an artistic genius. But take heart, all the colors and all the notes are there. ©1987 Apple Computer, Inc. Apple and the Apple logo are registered trademarks

# And every other subject.

In short, the IIgs runs programs that cover every area of human endeavor, from writing a school paper to planning a company budget. Kids can study anything from ABCs to SATs. And anyone can learn to paint like Monet or compose like Mozart\*.

All this on one of the easiest subjects in the world to master—the Apple IIgs. Interested?

Then why not pursue this subject with your nearest authorized Apple dealer.

You'll find that once your family sees and hears what the Apple IIgs can do, the idea of owning any other kind of personal computer will be, well, history. 🍏 The power to be your best.™
