Dear Apple IIGS Owner:

Congratulations on becoming an Apple IIGS™ Limited Edition owner!

Ten years ago, when I first developed the Apple® II, I never dreamed it would do so many things or last so long in the marketplace. For a decade, people have been developing new solutions and finding innovative uses for the machine. The Apple II was at the leading edge of technology when it first came out, and it has been revised many times since then to keep it there.

I'm very proud that Apple has taken a new giant step in the Apple II line with the Apple IIGS. Not only does it have great new graphics and sound capabilities, but it still runs the software I developed ten years ago! I'm sure that you, as one of the first purchasers of the Apple IIGS, share my excitement. It's as if the cycle were starting all over again—just as the solutions for the original Apple II have continued to grow over the last ten years, the new technologies embodied in the IIGS should allow for even greater strides over the next ten.

Because of the support you have given us, and your enthusiasm for the product, we wanted to give you something special. That's why your machine is a Limited Edition "Woz" version. I also wanted you to have the enclosed certificate of authenticity, which is signed by me and 12 key engineers who designed the product.

I hope you enjoy your new machine, and help pioneer new solutions with it for years to come!

Sincerely,

Steve Wozniak

Dear Apple IIgs Owner:

Congratulations on becoming an Apple IIgs™ Limited Edition owner.

Ten years ago, when I first developed the Apple® II, I never dreamed I would do so many things or last so long in the marketplace. For many years, people have been developing new solutions and finding innovations for the machine. The Apple II was at the leading edge of technology when it first came out, and it has been revised many times since then.

I'm very proud that Apple has taken a new giant step in the evolution of personal computers with the Apple IIgs. I'm sure that you, as one of the first purchasers of the Apple IIgs, will have a great time with it. It's as if the cycle were starting all over again. The solutions for the original Apple II have continued to grow, and the new technologies embodied in the IIgs should allow for even greater strides over the next ten.

Because of the support you have given us, and your enthusiasm for our product, we wanted to give you something special. The Apple IIgs machine is a Limited Edition "Woz" version. I also want to thank the engineers who designed the product.

I hope you enjoy your new machine, and help pioneer the way for years to come!

Sincerely,  
*Woz*  
Steve Wozniak
