TIMEOUT SUPERFONTS™

PRINTS YOUR DOCUMENTS WITH GREAT LOOKING MACINTOSH™ FONTS FROM
INSIDE APPLEWORKS™!

Now you can get Macintosh quality output from the AppleWorks Word Processor. There's no need to transfer your data or use a separate program.

You can print proportionally spaced characters in a wide variety of fonts and sizes. Plus TimeOut SuperFonts has a high quality print mode and a 50% reduction mode.

Styles such as bold, italic, underline, shadow, outline, subscript, superscript and negative can be freely applied to your writing.

And you can insert graphics into your documents.

TimeOut SuperFonts is simple to learn and use. You don't have to know AppleWorks inside out or be a computer expert to take advantage of TimeOut SuperFonts' speed and power.

Dear Sirs,

About two weeks ago I received the program that I ordered from you. Enclosed was a little note to the effect that if our school had need of some free disks that Beagle Bros would be glad to accommodate.

Well, for lack of anything better to do, I responded to that little note, saying "sure, if you've got 'em, we could sure use 'em".

Imagine my surprise when less than a week later a box arrived from Beagle Bros containing three dozen perfectly good floppies, postage paid and no strings attached. (In fact, there wasn't a scrap of communication of any kind, no catalogs, no pitches, no nothing, except three dozen disks.)

My elementary level kids now have disks to store their Logo Procedures on. I am as happy as a clam at high tide, and Beagle Bros is now #1 on my list.

Thank you so much, from the kids in Haines and myself. Never again will I doubt anything that Beagle Bros says, and needless to say, if you're selling it, we're going to buy it.

Sincerely,
